Life Spring Network

Life Spring Network is a Christian discipleship and reproductive leadership training ministry that was developed through the experience and vision of its President, Jason Pankau. As a pastor, seminar/retreat leader, organizational consultant and personal life coach, Jason has sought out and developed some of the best materials on wisdom and life stewardship to help people realize life's potential.

The ministry of the Life Spring Network exists to help communities of Christians establish and grow mentoring networks in their local congregations or ministry organizations.

The Omega Experience

Combining the Substance of Omega with the Strategy of Mentoring in the Soil of Connection, we have developed a comprehensive blueprint for you and your group or organization to dive into the deepest levels of discipleship the way it was meant to be experienced: together.

Start a mentoring movement in your own church or congregation by hosting or sending your leaders to this dynamic one-day seminar/retreat.

Small Group Leader Training

Small groups, when led well and committed to by the group members, can become amazing communities of fellowship, education, inspiration and transformation.

In this seminar small group leaders will be trained to understand the nature of reproductive disciple-making ministry and lead transformational covenant groups through the Omega Course.

Covenant groups are intended to be higher commitment groups where training one another in the faith toward living Christ-centered lives is normal.

This seminar will equip you with the confidence you need to lead a covenant small group using the Omega Course content and to build a dynamic transformational community.
